Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

How to obtain more information

Inquiries about this publication and related statistics or services should be directed to: Analysis and Dissemination Section, Labour Statistics Division, Statistics Canada, Ottawa, Ontario, K1A 0T6 (telephone (613) 951-4090) or to the Statistics Canada Regional Reference Centre in:

Halifax	(902) 426-5331	Regina	(306) 780-5405
Montréal	(514) 283-5725	Edmonton	(403) 495-3027
Ottawa	(613) 951-8116	Calgary	(403) 292-6717
Toronto	(416) 973-6586	Vancouver	(604) 666-3691

Ordering/Subscription Information

All prices exclude sales tax

Catalogue no. 72-002-XPB, is published monthly in a paper version for \$32.00 per issue or \$320.00 for twelve issues in Canada. Outside Canada the cost is US\$32.00 per issue and US\$32.00 for twelve issues.

Please send orders to Statistics Canada, Operations and Integration Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, K1A 0T6 or by dialing (613) 951-7277 or 1800 700-1033, by fax (613) 951-1584 or 1800 889-9734 or by Internet: order @statcan.ca or in person, at Statistics Canada regional offices.

Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner and in the official language of their choice. To this end, the agency has developed standards of service which its employees observe in serving its clients. To obtain a copy of these service standards, please contact your nearest Statistics Canada Regional Reference Centre.

Des données sous plusieurs formes

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes. Les données sont disponibles sur Internet, disque compact, disquette, imprimé d'ordinateur, microfiche et microfilm, et bande magnétique. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingue et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toute demande de renseignements au sujet de la présente publication ou au sujet de statistiques ou de services connexes doit être adressée à : Section de l'analyse et de la diffusion, Division de la Statistique du travail, Statistique Canada, Ottawa, Ontario, K1A 0T6 (téléphone : (613) 951-4090) ou à l'un des centres de consultation régionaux de Statistique Canada:

Vous pouvez également visiter notre site sur le Web: http://www.statcan.ca

Un service d'appel interurbain sans frais est offert à tous les utilisateurs qui habitent à l'extérieur des zones de communication locale des centres de consultation régionaux.

Normes de service au public

Statistique Canada s'engage à fournir à ses clients des services rapides, fiables et courtois et dans la langue officielle de leur choix. À cet égard, notre organisme s'est doté de normes de service à la clientèle qui doivent être observées par les employés lorsqu'ils offrent des services à la clientèle. Pour obtenir une copie de ces normes de service, veuillez communiquer avec le centre de consultation régional de Statistique Canada le plus près de chez vous.

Now available

Annual Estimates of Employment, Earnings and Hours, 1986-1998

You can now get the historical labour market information needed to complete your research project, accomplish longterm company planning or successfully resolve contract escalation questions.

This product will help you...

Identify, retrieve and process essential information for over 200 industry groups available at national, provincial and territorial levels. Also included are total number of employees (including estimates of those paid by the hour); average weekly and hourly earnings; average weekly hours worked and payrolls data.

This indispensable reference source is presented in 3 easyto-load, user-friendly electronic formats that make accessing the data you need simpler than ever. With Adobe Acrobat software, you can easily view or print your own paper copy, while the ASCII file format lets you export the data to your preferred spreadsheet.

PLUS, also included in this issue is the Help-Wanted Index, De plus, cette édition contient le supplément de L'indice de 1981-1998 supplement. This index gives you reliable

information on changes in the demand for labour for Canada, provinces and territories, regions and metropolitan areas. In fact, it is the only indicator of labour demand compiled by Statistics Canada on a regular basis.

Annual Estimates of Employment, Earnings and Hours

Annual Estimates of Employment, Earnings

and Hours, 1986-1998 plus the Help-Wanted Index, 1981-1998, a goldmine of information at your fingertips.

Maintenant disponible

Les estimations aunuelles de l'emploi, des gains et de la durée du travail, 1986-1998

Vous pouvez maintenant obtenir de l'information historique sur le marché du travail qui vous permettra de compléter votre projet de recherche, faire de la planification à long terme pour votre entreprise ou résoudre efficacement les questions touchant les clauses d'indexation de contrats.

Ce produit aidera à...

Identifier, recueillir et transformer des renseignements indispensables pour plus de 200 groupes d'industries, tant sur les plans national, provincial et territorial. On y retrouve de l'information sur le nombre total de salariés (et de salariés rémunérés à l'heure): la rémunération hebdomadaire et horaire movenne; les heures hebdomadaires movennes travaillées ainsi que la rémunération brute.

Cette ressource est un outil de travail important. Elle est présentée dans 3 formats faciles à télécharger et à utiliser. ce qui rend l'accès aux données plus facile que jamais. À l'aide du logiciel Adobe Acrobat, vous pouvez facilement visualiser ou imprimer votre propre publication. Les fichiers ASCII vous permettent d'exporter les données dans le chiffrier de votre choix.

l'offre d'emploi, 1981-1998. Cet indice fournit des

Les estimations annuelles de l'emploi des gains, et de la durée du travail

renseignements fiables permettant de suivre les changements de la demande de main-d'oeuvre, au niveau du Canada, des provinces et territoires, des grandes régions provinciales et des régions métropolitaines. Il s'agit en fait du seul indicateur de la demande de main-d'oeuvre produit de façon régulière par Statistique Canada.

Les estimations annuelles de l'emploi, des gains et de la durée

du travail, 1986-1998 ainsi que L'indice de l'offre d'emploi, 1981-1998, sont une mine d'or à la portée de la main.

Note to users

Re-engineering the survey:

Beginning with the May 1998 release, the Labour Division has completed the third phase of its redesign of the use of administrative records for the production of employment, earnings and hours estimates. With the change in methodology. employment estimates derived from administrative records may show a different seasonal pattern than the previous data, which were derived from survey questionnaires. The impacts on seasonal patterns due to this change in methodology can only be assessed over a longer time period. Statistics Canada will continue to monitor these impacts and will help users interpret this data. To minimize the effect of impacts, data from the Survey on Employment on Employment, Payrolls and Hours, particularly employment data, be used over longer time periods for detailed industry distributions.

For more information on the redesign, users can contact the SEPH dissemination unit at: (613) 951-4090.

Avis aux utilisateurs

Remaniement de l'enquête:

Avec la parution des estimations de mai 1998. Statistique Canada a complété la troisième phase de son remaniement concernant l'utilisation des données administratives dans la compilation des estimations de l'emploi, de la rémunération et des heures de travail. Étant donné ce changement méthodologique, il se peut que les estimations de l'emploi mesurées à partir de données administratives montrent un modèle saisonnier différent de celui des données obtenues à l'aide de questionnaires, ce qui ne peut être déterminé que dans le contexte d'une plus longue période. Statistique Canada continuera d'examiner ces répercussions et sera disposé à aider quiconque à faire une interprétation correcte de ses données. Afin de minimiser les effets, il est recommandé d'utiliser les données de l'Enquête sur l'emploi, la rémunération et les heures de travail, particulièrement celles de l'emploi, dans le contexte d'une plus longue période ou pour obtenir une distribution détaillée par secteur.

Pour de plus amples renseignements sur le remaniement, communiquez avec l'unité de diffusion au: (613) 951-4090.

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Notes Notes

Data for the current month are preliminary estimates and are subject to revision in the next issue of this publication.

Data contained in this publication (unless otherwise specified) are not seasonally adjusted.

Les données du mois le plus récent sont des estimations préliminaires et seront révisées lors de la prochaine parution de cette publication.

À moins d'avis contraire, les données paraissant dans cette publication sont non désaisonnalisées.

Symbols

The following standard symbols are used in Statistics Canada publications:

- . figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- -- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'avant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi suta statistique relatives au secret.

Note on CANSIM

The data published in Employment, Earnings and Hours (Catalogue No. 72-002-XPB) are also available in machine readable form through CANSIM (Canadian Socio-Economic Information Management System). Users interested in accessing data via CANSIM should contact one of Statistics Canada's regional centres at the numbers listed on the inside front cover of this publication, or contact the Marketing division, Statistics Canada, R.H. Coats Building, Ottawa, Ontario, K1A 0T6 (613) 951-8200

Note concernant CANSIM

Les données qui sont publiées dans l'Emploi, gains et durée du travail (n° 72-002-XPB au catalogue) peuvent être obtenues sous forme lisible par machine de CANSIM (Système Canadien d'information socio-économique). Les utilisateurs voulant obtenir des chiffres par l'intermédiaire de CANSIM peuvent contacter un des centres de consultation de Statistique Canada dont les numéros de téléphone figurent à l'endos du couvert de cette publication ou en communiquant directement avec la division du marketing, Statistique Canada, Immeuble R.H. Coats, Ottawa, Ontario, K1A 0T6 (613)951-8200.

Design your own table

Design your own table to order Employment, Payrolls and Hours data in the detail you need it. All data collected by the survey can be custom tabulated to meet your particular data needs. A consultant will help you custom design your tabulation. Our office is open from 8:00 A.M. to 4:30 P.M..

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" - "Permanence of Paper for Printed Library Materials", ANSI Z39.48-1984.

Survey Overview

Aperçu de l'enquête

Note to readers

Beginning with the May 1998 release, the Labour Division has completed the third phase of its redesign in the use of administrative records for the production of employment, earnings and hours estimates. In addition, a new sample for the Business Payrolls Survey has been drawn to produce estimates of paid hours, and average weekly and hourly earnings. A description of the methodological changes and their impacts on the data is available in the May 1998 publication.

The monthly Survey of Employment, Payrolls and Hours is designed to measure the levels and month-to-month trends of payroll employment, paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

Methodology

Target population

The target population is composed of all employers in Canada, except those in agriculture, fishing and trapping, private households services, religious organizations and military personnel of defence services. The survey reference period for SEPH is the pay period that includes the last seven days of the month.

The statistics contained in this publication are based on:

- *a census of administrative records having approximately 100 employees or more,
- *a sample of administrative records having approximately 99 employees or less.
- a sample survey (BPS) conducted to estimate the variables not reported on administrative records.

*The administrative data come from 2 questions that were added to the Revenue Canada's remittance form (PD7). Note that employers who remit less than \$15,000 monthly in income tax withholdings, Canada/Quebec Pension Plan contributions and Employment Insurance premiums need to remit only once a month while all others are required to remit twice or more monthly. In addition, beginning with October 1997, employers remitting a total of \$12,000 or less per year are allowed to send their payroll deductions to Revenue Canada on a quarterly basis.

The total payroll and employment estimates are obtained from Administrative records. The Business Payrolls Survey

Note aux lecteurs

Avec la parution des estimations de mai 1998, la Division du travail a complété la troisième phase de son remaniement concernant l'utilisation des données administratives dans la compilation des estimations de l'emploi, gains et durée du travail inscrits sur le registre de paye. De plus, un nouvel échantillon a été tiré pour l'Enquête sur la rémunération auprès des entreprises afin de produire des estimations sur le nombre d'heures rémunérées, la rémunération hebdomadaire moyenne ainsi que la rémunération horaire moyenne. Une description des changements méthodologiques, ainsi que de leur impact sur les données est disponible dans la publication de mai 1998.

L'enquête mensuelle sur l'emploi, la rémunération et les heures a pour objet de mesurer les niveaux et les tendances mensuelles de l'ensemble des salariés inscrits sur la liste de paye, des heures rémunérées et des gains. Ces données sont rassemblées à des niveaux détaillés selon l'activité économique pour le Canada, les provinces et les territoires.

Méthodologie

Population cible

La population cible comprend tous les employeurs au Canada sauf ceux des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques, des ménages, des organismes religieux et des services du personnel militaire de la défense. La période de référence de l'EERH, est la période de paye qui correspond aux sept derniers jours du mois.

Les statistiques comprises dans la présente publication sont fondées sur:

- *un recensement des dossiers administratifs comprenant approximativement 100 salariés ou plus,
- *un échantillon des dossiers administratifs comprenant approximativement 99 salariés ou moins,
- une enquête-échantillon (ERE) servant de base pour estimer les variables non rapportées sur les dossiers administratifs.

*Les données administratives proviennent de 2 questions qui ont été ajoutées au formulaire des retenues sur la paye (PD7) de Revenu Canada. Veuillez noter que les employeurs qui versent moins de 15 000 \$ par mois en retenues d'impôt, en contributions au fonds de pension du Canada, au Régime des rentes du Québec et en primes d'assurance-emploi, n'effectuent qu'un versement mensuelle tandis que les autres font 2 versements ou plus par mois. De plus, depuis octobre 1997, les employeurs ayant un maximum total de 12 000 \$ ou moins en retenues sur la paye par année, peuvent faire des versements sur une base trimestrielle à Revenu Canada.

Le nombre total de salariés inscrits sur la liste de paye provient des dossiers administratifs. L'Enquête sur la rémunération auprès des

(BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficients needed to estimate data not reported on the administrative records. Combining different sources, BPS and Administrative Survey results in the full range of SEPH variables.

TERMS AND DEFINITIONS

Industry classification: On the basis of its principal activity, each establishment is assigned an industry code according to the 1980 Standard Industrial Classification. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue 12-501. In the tables of this publication, a column is identified "S.I.C. Code" and corresponds to that manual. SEPH has 281 industry groups in scope. For analytical purposes, special groupings which are not part of the Standard Industrial Classification, have been created.

- a) Industrial aggregate (000-999) represents the sum of all the industries included in the survey. Since January 1994, employment estimates for the Industrial aggregate include the unclassified businesses.
- b) Unclassified businesses (000) represents businesses that have not yet been classified to an SIC, a province or a territory. Since January 1994, employment estimates for industrial aggregate includes the unclassified businesses.
- Goods-producing industries (041-449)(491-499) consist of the following industries; forestry, mining, manufacturing, construction and other utilities industries.
- d) Service-producing industries (451-484)(501-999) consist of the following industries; transportation, communication and storage, trade, finance and insurance, services (except religious organizations and private households) and public administration industries (except military personnel of defence services and other government services).
- e) Durable goods manufacturing consist of the following industries; wood (251-259), furniture and fixtures (261-269), primary metal (291-299), fabricated metal products (301-309), machinery (311-319), transportation equipment (321-329), electrical and electronic products (331-339), non-metallic mineral products (351-359) and other manufacturing industries (391-399).
- f) Non-durable goods manufacturing consist of the following industries; food (101-109), beverage (111-114), tobacco (121-122), rubber products (151-159), plastic products (161-169), leather products (171), primary textile (181-183), textile products (191-199), clothing (243-249), paper and allied products (271-279), printing, publishing and allied (281-284), refined petroleum and coal products (361-369), chemical and chemical products (371-379).

entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas rapportées sur les dossiers administratifs. Ces différents volets soit l'ERE ainsi que les dossiers administratifs sont combinés en vue de produire toutes les variables propres à l'EERH.

TERMES ET DÉFINITIONS

Classement par activité économique: Un code d'activité économique tiré de la Classification type des industries de 1980 est attribué à chaque établissement selon sa principale activité. Les industries et les différents groupes industriels sont décrits dans le manuel "Classification Type des Industries 1980" catalogue 12-501. Dans les tableaux de cette publication, une colonne est identifiée "CTI 1980". Ces codes correspondent à ce manuel. On compte 281 groupes d'activités visées par l'EERH. À des fins analytiques, nous avons créé des groupes spéciaux qui ne figurent pas dans la Classification type des industries.

- a) Ensemble des industries (000-999) représente la somme de toutes les industries visées par l'enquête. Depuis janvier 1994, l'emploi pour l'ensemble des industries comprend les entreprises non classifiées.
- b) Les entreprises non classifiées (000) représentent des entreprises n'ayant pas été identifiées à une classification industrielle, une province ou un territoire. Depuis janvier 1994, l'emploi des entreprises non classifiées est compris dans l'ensemble des industries.
- Branche productrice de biens (041-449)(491-499) englobe les industries suivantes; forêts, mines, manufactures, construction et autres services publics.
- d) Branche productrice de services (451-484)(501-999) englobe les industries suivantes; transports, communications et entreposage, commerce, finances et assurances, services (sauf les organismes religieux et les ménages privés) et l'administration publique (excepté les services du personnel militaire de la défense et autres services gouvernementaux).
- e) Biens durables des industries manufacturières englobe les industries suivantes; bois (251-259), meubles et articles d'ameublement (261-269), première transformation des métaux (291-299), fabrication des produits métalliques (301-309), machinerie (311-319), matériel de transport (321-329), produits électriques et électroniques (331-339), produits minéraux non métalliques (351-359), et autres industries manufacturières (391-399).
- f) Biens non durables des industries manufacturières englobe les industries suivantes; aliments (101-109), boisson (111-114), tabac (121-122), produits en caoutchouc (151-159), produits en matière plastique (161-169), cuir (171), première transformation du textile (181-183), produits textiles (191-199), habillement (243-249), papier et produits connexes (271-279), imprimerie, édition et industries connexes (281-284), produits raffinés du pétrole et du charbon (361-369), produits chimiques (371-379).

- g) Banks (700) consist of the following industries; Central Bank (701), Chartered Banks and other banking-type intermediaries (702).
- Other amusement and recreational services (960) consist of the following industries; commercial spectator sports (964), gambling operations (966) and other amusement and recreational services (969).
- i) Public Administration (812-837) contains only the establishments engaged in activities that are governmental in character and those serving as internal service agencies of the public service. Government owned establishments primarily engaged in activities assigned to other industries are classified in those industries along with similar establishments owned by non-government bodies. Therefore, data included in this industry division do not represent the actual number of persons employed by government at any level.

Variables

Employee:

The employment is derived from administrative records. Since the data for the different employee categories are not reported on the administrative records, the BPS survey is conducted to estimate ratios needed to calculate those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Revenue Canada T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

The employees are classified into the following categories:

a) Employees paid by the hour: any employee whose

- Banques (700) englobe les industries suivantes; banque centrale (701) et banques à charte et autres intermédiaires de type bançaire (702).
- Services de divertissements et de loisirs (960) englobe les industries suivantes; sports commerciaux (964), loteries et jeux de hasard (966) et autres services de divertissements et de loisir (969).
- i) Administration publique (812-837) comprend seulement les établissements dont les activités ont un caractère essentiellement gouvernemental, et les organismes auxiliaires assurant les services internes de l'État. Les établissements publics dont l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.

Variables

Salarié:

L'emploi provient des dossiers administratifs. Toutefois, les renseignements concernant les différents types d'emplois ne sont pas rapportés sur les dossiers administratifs; l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servant à estimer ces variables.

L'enquête définit un salarié comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de Revenu Canada.

Le concept de l'enquête combine les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en société, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus, les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

Les salariés sont classés dans les catégories suivantes:

a) Salariés rémunérés à l'heure: toute personne dont la

basic wage is expressed as an hourly rate.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *non-teaching staff*: All employees other than teachers and academic staff, for example; president, vice-president, librarian, registrar, bursar, accountant, guidance counselor, laboratory technician, personnel officer and other services (ianitor, caretaker, bus driver, etc.).

 b) *Salaried employees: any employee whose basic remuneration is a fixed amount for at least one week.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *teaching staff:* those classified as teachers, instructors or academics in the payroll records (e.g. principal, professor, dean, head of department, master, teacher, etc.) whether they teach during the day or evening. Supply or substitute teachers are excluded.

c) *Other employees: those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. Although this variable is not included in this document, the data remains available.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *supply or substitute teachers*: teachers who are called in as needed either to augment existing staff or as short-term replacements for a full-time or part-time teachers.

Weekly Payrolls:

Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, employment insurance contributions etc.., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to employment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to

coincide with the reference week period. The gross monthly payrolls are derived from Administrative records.

Average weekly earnings for all employees:

Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

rémunération de base est calculée selon un taux horaire.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le *personnel non enseignant*: toute personne autre que le personnel enseignant, c'est-à-dire le président, le vice-président, le bibliothécaire, le secrétaire général, l'économe, le comptable, les orienteurs, les techniciens de laboratoire, les agents du personnel ainsi que les autres services (le concierge, pourvoyeur, chauffeur d'autobus, etc.)

 b) *Employés (à salaire fixe): toutes personnes dont la rémunération de base constitue une somme fixe versée pour au moins une semaine.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le *personnel enseignant*: tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur, professeurs, doyens, chefs de département, maîtres, enseignants, etc.), qu'il enseigne le jour ou le soir. Les suppléants ou remplacants sont exclus.

c) *Autres salariés: toutes personnes dont la rémunération de base se présente sous forme de commissions, de salaire à la pièce, d'indemnités de millage, etc. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le personnel *suppléants ou remplaçants*: enseignants appelés à se présenter au travail lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

Rémunération hebdomadaire brute:

La rémunération mensuelle brute est définie comme étant la partie de la rémunération hebdomadaire brute qui reflète le travail accompli durant la semaine de référence. Ca représente la valeur brute en dollars avant les déductions pour l'impôt sur le revenu, les contributions à l'assurance-emploi etc... incluant le salaire réqulier. le surtemps et la partie bonis, commissions et tout autres types de paiements spéciaux. Le concept sur la rémunération, ne comprend pas les montants en dollars qui représentent des allocations et des avantages imposables, certains types d'indemnités non salariales ainsi que les cotisations patronales à l'assurance-emploi, au régime de pension du Canada ou au Régime des rentes du Québec, aux régimes d'assurance-maladie provinciaux, aux caisses d'indemnisation des accidents du travail et à d'autres régimes de prévoyance. Les paiements annuels spéciaux sont exclus tandis que les paiements forfaitaires spéciaux sont rajustés de façon à coïncider avec la semaine de référence. rémunération mensuelle brute provient des dossiers administratifs.

Rémunération hebdomadaire moyenne pour l'ensemble des salariés:

La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés Average weekly hours for employees paid by the hour and standard work week for salaried employees:

Average weekly hours are obtained by dividing the total paid weekly hours (for employees paid by the hour) by the number of employees (paid by the hour). Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence.

Average hourly earnings (including overtime) for employees paid by the hour:

Is obtained by dividing the total weekly payrolls (for employees paid by the hour) by the total number of weekly hours (for employees paid by the hour). Average hourly earnings are calculated for the hourly-rated employees and for the salaried employees.

inscrits sur la liste de paye.

Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées (des salariés rémunérés à l'heure) par le nombre de salariés (rémunérés à l'heure). Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées.

Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute (des salariés rémunérés à l'heure) par le nombre d'heures travaillées (de ces même salariés). La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des employés. ■

Highlights

Faits saillants

Employment, earnings and hours

October 1999 (preliminary)

In October, average weekly earnings for all employees remained virtually unchanged from the previous month at \$613.00. Over the preceding 12 months, employees' average earnings have increased 0.9%.

At the provincial level, average earnings in the preceding 12 months ranged from a 2.1% increase for employees in New Brunswick to a 0.6% decline for employees in Quebec, where weakness in earnings was mostly due to a decline in average paid hours for employees in manufacturing.

Hourly rated employees in all industries earned an average of \$15.43 per hour, an increase of 2.3% compared with October 1998. Average overtime hours worked per week was unchanged in the past year.

Payroll employment increased substantially in October. Total employment increased by 46,000 with strong gains in manufacturing, business services and accommodation and food. Retail trade employment was somewhat weak in October due to a decline in employment by department stores. Employment levels increased in all provinces, with the strongest growth in Ontario and Alberta.

Emploi, gains et durée du travail

Octobre 1999 (données provisoires)

En octobre, la rémunération hebdomadaire moyenne pour l'ensemble des salariés est restée pratiquement inchangée par rapport au mois précédent et se situait à 613,00 \$. Durant les 12 derniers mois, la rémunération moyenne des salariés a augmenté de 0,9 %.

À l'échelon provincial, la rémunération moyenne au cours des 12 derniers mois allait d'une augmentation de 2,1 % pour les salariés de la province du Nouveau-Brunswick à une diminution de 0,6 % pour les salariés de la province de Québec. La faiblesse de la rémunération moyenne au Québec est en grande partie attribuable à une baisse de la moyenne des heures travaillées pour les salariés du secteur manufacturier

En octobre, les salariés rémunérés à l'heure pour l'ensemble des secteurs ont gagné en moyenne 15,43 \$ de l'heure, en hausse de 2,3 % par rapport à octobre 1998. La moyenne des heures supplémentaires travaillées par semaine est demeurée inchangée durant les 12 derniers mois.

En octobre, le nombre de salariés inscrits sur les listes de paye a augmenté substantiellement. Le nombre total d'emplois était en hausse de 46 000, affichant de forts gains dans le secteur des industries manufacturières, des services aux entreprises et de l'hébergement et la restauration. Le déclin de l'emploi dans le secteur du commerce de détail enregistré en octobre était attribuable à une diminution de l'emploi dans les magasins à rayon. Toutes les provinces ont connu des hausses d'emploi, les plus fortes ayant été enregistrées en Ontario et en Alberta

Seasonally Adjusted Estimates of Employment, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1995-1999). Estimations désaisonnalisées de l'emploi, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

Employment increased in October by 45,693 to 11,890,121. Significant increases were noted in manufacturing (17,942) in accommodation, food and beverages (9702) and business services (9,115). The province of Ontario had the most significant increase followed by Alberta with 11,848 and 8,455 respectively.

En octobre, le niveau de l'emploi a augmenté de 45 693 pour s'établir à 11 890 121. Des augmentations importantes ont été notées dans l'industrie des manufactures (17 942), de l'hébergement et de la restauration (9 702) ainsi que des services aux entreprises (9 115). C'est en Ontario qu'a eu lieu l'augmentation la plus significative soit de 11 848 employés, alors que l'Alberta suivait avec une hausse de 8 455 employés.

Table 2

Tableau 2

Seasonally Adjusted Estimates of Average Weekly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1995-1999). Estimations désaisonnalisées de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

Average weekly earnings increased in October by \$0.18 to \$613.00. This increase was noted in service-producing industries mostly in education and business services while the goods producing industries registered a slight decline. North West Territories and the province of Manitoba recorded the biggest increases in October.

La rémunération hebdomadaire moyenne était en hausse de 0,18\$ pour s'établir à 613,00\$. Cette croissance a eu lieu dans la branche productrice de services et plus particulièrement, dans les indutres des services d'enseignement et des services aux entreprises alors que la branche productrice de biens enregistrait une légère baisse. Les Territoires-du-Nord-Ouest et la province du Manitoba ont enregistré les plus fortes hausses en octobre.

Tableau 4

Number of Industries Showing Year-Over-Year Increases in Employment, for Selected Industries, Canada, (1995-1999).

Nombre d'industries démontrant des augmentations d'emploi d'une année à l'autre, pour une sélection d'industries, Canada (1995-1999).

The number of industries showing year-over-year growth in employment increased in October. One hundred fifty eight of 214 industries recorded employment gains in the past 12 months. Gains were in both goods-producing and service-producing industries.

En octobre, le nombre d'industries ayant enregistré une croissance annuelle de l'emploi était en hausse. Au cours des 12 derniers mois, l'emploi a augmenté dans 158 des 214 industries. Les branches productrices de biens et de services ont toutes deux enregistré des augmentations.

Employment, Earnings and Hours, 1999 Statistics Canada - Cat. No. 72-002-XPB

Table 5

Tableau 5

Estimates of Employment, Payrolls and Average Weekly Earnings, for All Employees, by Industry, Canada, Provinces and Territories.

Estimations de l'emploi, de la rémunération brute et de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, par industrie, Canada, provinces et territoires.

Average weekly earnings (including overtime) for all employees in October 1999 stood at \$613.09, an increase from October 1998 of \$4.98. Service-producing industries showed an annual increase of \$8.00, while goods-producing industries experienced a slight decline.

En octobre, la rémunération hebdomadaire moyenne (incluant le temps supplémentaire) pour tous les employés s'établissait à 613,09\$, soit un augmentation de 4,98\$ par rapport à Octobre 1998. La branche productrice de services a connu une augmentation annuelle de 8,00\$ alors que la branche productrice de biens enregistrait une légère diminution.

Employment, Earnings and Hours, 1999 Statistics Canada - Cat. No. 72-002-XPB

Table 6

Tableau 6

Estimates of Employment, Average Hourly Earnings and Hours, for Employees Paid by the Hour, by Industry, Canada, Provinces and Territories. Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les salariés rémunérés à l'heure, par industrie, Canada, provinces et territoires.

Average hourly earnings (including overtime) for hourly employees rose by \$0.29 to \$15.44 in October 1999 compared to October 1998. Largest gains were seen in service producing industries with an increase of 2.3 per cent from one year ago.

Au cours des 12 derniers mois, la rémunération horaire moyenne (incluant le temps supplémentaire) était en hausse de 0,29\$ pour s'établir à 15,44\$ en octobre 1999. Les gains les plus importants ont été enregistré dans la branche productrice de services avec une croissance de 2,3% par rapport à octobre 1998.

Table 7

Tableau 7

Estimates of Employment, Average Hourly Earnings and Hours, for Salaried Employees, by Industry, Canada, Provinces and Territories. Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les employés (à salaire fixe), par industrie, Canada, provinces et territoires.

In October 1999, average weekly earnings (including overtime) for salaried employees rose to \$791.89 up \$12.50 from October 1998. Service producing industries showed an increase of \$16.86 from October a year ago while goods producing industries showed a slight decrease.

En octobre 1999, la rémunération hebdomadaire moyenne (incluant le temps supplémentaire) pour les employés à salaire fixe s'établissait à 791,89\$ soit une hausse 12,50\$ depuis octobre 1998. Au cours de la même période, la branche productrice de services connaissait une augmentation de 16,86\$ alors que la branche productrice de biens enregistrait une légère baisse.

Administrative data: data derived from the monthly payroll deduction forms (PD7 forms) from Revenue Canada. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month.
- TM refers to accelerated remitters (medium and large businesses reporting more than once a month).
- * Please note that as of may the SEPH establisment survey has been replaced by an increased use of administrative records in the production of the SEPH estimates.

Données administratives: données provenant des formulaires de retenue sur la paye (formulaires PD7) de Revenu Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).
- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

^{*}Veuillez noter, qu'à partir du mois de référence mai 1998, l'enquête établissement de l'EERH a été remplacé par l'utilisation accrue des données administratives dans la Compilation des estimations de l'EERH.

المحلون والمحلون المحلون he current

emphasis on information resonates loudly in the workplace.

Perspectives on Labour and Income

meets your need for <u>accurate, timely</u> <u>and comprehensive information</u>. The bottom line? You get vital data and analysis on the workplace and related issues facing contemporary Canada!

Each analytical article in this quarterly journal has clear charts, tables and summaries.

Perspectives reveals the latest labour and demographic statistics – essential to

- determine how attitudes toward retirement influence investment decisions
- evaluate the effect of wage trends on union bargaining
- forecast the effect of employment on the demand for goods and services or social programs
- compare your organization within your industry
- develop labour market studies
- ... and much more!

L'emploi et le revenu en perspective

عاد المادول

De nos jours, on attache beaucoup d'importance à

l'information en milieu de travail. La revue *L'emploi et le revenu en perspective* répond à vos besoins pour des renseignements qui sont à

la fois <u>précis</u>, <u>actuels et complets</u>. Vous disposerez alors de données essentielles et d'analyses sur le milieu du travail et sur d'autres défis auxquels le Canada est confronté!

Le tremplin à votre succès

Les articles analytiques de cette revue trimestrielle comportent des graphiques, des tableaux et des sommaires conçus de façon à présenter clairement les statistiques sur le

marché du travail et les statistiques démographiques qui sont essentielles pour :

- déterminer dans quelle mesure les attitudes à l'égard de la retraite influent sur les décisions en matière de placements
- évaluer l'effet des tendances salariales sur les négociations syndicales
- ▶ faire des prévisions relatives à l'incidence de l'emploi sur la demande de biens et de services ou sur les programmes sociaux
- comparer votre organisation à votre branche d'activité dans son ensemble
- effectuer des études sur le marché du travail
- ... et bien plus encore!

One easy decision: Subscribe todayl

When you invest in this Statistics Canada journal, you're investing in your future. *Perspectives on Labour and Income* (cat. no. 75-001-XPE) costs \$58 in Canada (plus applicable taxes) and US\$58 outside Canada.

MERCI DE VOTRE COMMANDE!

Canada A Portrait

The Perfect Gift for Your Family, Friends, Colleagues and Clients

A Celebration of Canada

In this era of electronic communication, we appreciate more than ever the lasting beauty of a well-designed hardcover book. Treat yourself and others to Canada A Portrait, a panoramic view of our society and landscape.

Un portrait du Canada

Le cadeau idéal pour votre famille, vos amis, vos collègues et vos clients

Une célébration du Canada

À une époque où les communications se font davantage par voie électronique, nous apprécions plus que jamais la beauté durable d'un livre relié de conception soignée. Offrezvous et offrez à d'autres un exemplaire du livre Un portrait du Canada, qui présente une vue panoramique de notre société et de notre territoire.

Canada A Portrait profiles our country as we head into the new century

In 204 pages, *The Land, The People, The Society, Arts and Leisure, The Economy*, and *Canada in the World* are all masterfully and permanently captured with engrossing narrative and more than 100 illustrations. Each chapter is prefaced by a very personal contribution from one of our most talented and respected citizens:

Susan Aglukark, Pierre Berton, Richard Lipsey, Monique Mercure, Oscar Peterson and David Suzuki.

Since publication of the first edition in 1927, *Canada A Portrait* has been praised for its excellence. This 56th edition builds on this Statistics Canada tradition, offering booklovers a true celebration of Canada.

Connect with Canada at the close of a century. Celebrate the beginning of a millennium.

Order your copies today!

Canada A Portrait (cat. no. 11-403-XPE00001) costs \$42.95 plus shipping, handling and applicable taxes.

Un portrait du Canada dresse un profil de notre pays à l'aube du 21° siècle

En 204 pages, cet ouvrage dépeint de façon captivante et de main de maître *Le territoire, La population, La société, Les arts et les loisirs, L'économie* et *Le Canada dans le monde*, des thèmes que plus de 100 illustrations viennent figer dans le temps. Chaque chapitre est précédé d'une préface, une contribution personnelle d'un de nos plus éminents et talentueux citoyens : Susan Aglukark, Pierre Berton, Richard Lipsey, Monique Mercure, Oscar Peterson et David Suzuki.

La publication *Un portrait du Canada* est reconnue pour son excellence depuis la parution de la première édition en 1927. Cette 56° édition, qui s'inscrit dans cette tradition, offre aux amateurs de livres une célébration du Canada unique en son genre.

Avec cette publication, vous serez branché sur le Canada en cette fin de siècle. Quoi de mieux pour célébrer le début d'un nouveau millénaire?

Commandez vos exemplaires dès aujourd'hui!

La publication Un portrait du Canada (n° 11-403-XPF00001 au catalogue) coûte 42,95 \$, frais de port et de manutention et taxes en vigueur en sus.

Data in many forms

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered. Data are available on the Internet, compact disc, diskette, computer printouts, microfiche and microfilm, and magnetic tape. Maps and other geographic reference materials are available for some types of data. Direct online access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable database and retrieval system.

How to obtain more information

Inquiries about this publication and related statistics or services should be directed to: Analysis and Dissemination Section, Labour Statistics Division, Statistics Canada, Ottawa, Ontario, K1A 0T6 (telephone (613) 951-4090) or to the Statistics Canada Regional Reference Centre in:

Halifax	(902) 426-5331	Regina	(306) 780-5405

Normes de service au public

Statistique Canada s'engage à foumir à ses clients des services rapides, fiables et courtois et dans la langue officielle de leur choix. À cet égard, notre organisme s'est doté de normes de service à la clientèle qui doivent être observées par les employés lorsqu'ils offrent des services à la clientèle. Pour obtenir une copie de ces normes de service, veuillez communiquer avec le centre de consultation régional de Statistique Canada le plus près de chez vous.

Now available

Annual Estimates of Employment, Earnings and Hours, 1986-1998

Maintenant disponible

Les estimations annuelles de l'emploi, des vains et de la durée du travail. 1986-1998

You can now get the historical labour market information needed to complete your research project, accomplish longterm company planning or successfully resolve contract escalation questions.

This product will help you...

Identify, retrieve and process essential information for over 200 industry groups available at national, provincial and territorial levels. Also included are total number of employees (including estimates of those paid by the hour); average weekly and hourly earnings; average weekly hours worked and payrolls data.

This indispensable reference source is presented in 3 easyto-load, user-friendly electronic formats that make accessing the data you need simpler than ever. With Adobe Acrobat software, you can easily view or print your own paper copy, while the ASCII file format lets you export the data to your preferred spreadsheet.

PLUS, also included in this issue is the *Help-Wanted Index*, 1981-1998 supplement. This index gives you reliable

information on changes in the demand for labour for Canada, provinces and territories, regions and metropolitan areas. In fact, it is the only indicator of labour demand compiled by Statistics Canada on a regular basis.

Annual Estimates of Employment, Earnings and Hours

Vous pouvez maintenant obtenir de l'information historique sur le marché du travail qui vous permettra de compléter votre projet de recherche, faire de la planification à long terme pour votre entreprise ou résoudre efficacement les questions touchant les clauses d'indexation de contrats.

Ce produit aidera à...

Identifier, recueillir et transformer des renseignements indispensables pour plus de 200 groupes d'industries, tant sur les plans national, provincial et territorial. On v retrouve de l'information sur le nombre total de salariés (et de salariés rémunérés à l'heure): la rémunération hebdomadaire et horaire moyenne; les heures hebdomadaires moyennes travaillées ainsi que la rémunération brute.

Cette ressource est un outil de travail important. Elle est présentée dans 3 formats faciles à télécharger et à utiliser, ce qui rend l'accès aux données plus facile que jamais. À l'aide du logiciel Adobe Acrobat, vous pouvez facilement visualiser ou imprimer votre propre publication. Les fichiers ASCII vous permettent d'exporter les données dans le chiffrier de votre choix.

De plus, cette édition contient le supplément de L'indice de l'offre d'emploi, 1981-1998. Cet indice fournit des

> renseignements fiables permettant de suivre les changements de la demande de main-d'oeuvre, au niveau du Canada, des provinces et territoires, des grandes régions provinciales et des régions métropolitaines. Il s'agit en fait du seul indicateur de la demande de main-d'oeuvre produit de façon régulière par Statistique Canada

Les estimations annuelles de l'emploi, des gains et de la durée

du travail, 1986-1998 ainsi que L'indice de l'offre d'emploi, 1981-1998, sont une mine d'or à la portée de la main.

und Hours, 1986-1998 plus the Help-Wanted Index, 1981-1998, a goldmine of information at your fingertips.

Note to users

Re-engineering the survey:

Beginning with the May 1998 release, the Labour Division has completed the third phase of its redesign of the use of administrative records for the production of employment, earnings and hours estimates. With the change in methodology. employment estimates derived from administrative records may show a different seasonal pattern than the previous data. which were derived from survey questionnaires. The impacts on seasonal patterns due to this change in methodology can only be assessed over a longer time period. Statistics Canada will continue to monitor these impacts and will help users interpret this data. To minimize the effect of impacts, data from the Survey on Employment on Employment, Payrolls and Hours, particularly employment data, be used over longer time periods for detailed industry distributions.

For more information on the redesign, users can contact the SEPH dissemination unit at: (613) 951-4090.

Avis aux utilisateurs

Remaniement de l'enquête:

Avec la parution des estimations de mai 1998, Statistique Canada a complété la troisième phase de son remaniement concernant l'utilisation des données administratives dans la compilation des estimations de l'emploi, de la rémunération et des heures de travail. Étant donné ce changement méthodologique, il se peut que les estimations de l'emploi mesurées à partir de données administratives montrent un modèle saisonnier différent de celui des données obtenues à l'aide de questionnaires, ce qui ne peut être déterminé que dans le contexte d'une plus longue période. Statistique Canada continuera d'examiner ces répercussions et sera disposé à aider quiconque à faire une interprétation correcte de ses données. Afin de minimiser les effets, il est recommandé d'utiliser les données de l'Enquête sur l'emploi, la rémunération et les heures de travail, particulièrement celles de l'emploi, dans le contexte d'une plus longue période ou pour obtenir une distribution détaillée par secteur.

Pour de plus amples renseignements sur le remaniement, communiquez avec l'unité de diffusion au: (613) 951-4090.

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Notes Notes

Data for the current month are preliminary estimates and are subject to revision in the next issue of this publication.

Data contained in this publication (unless otherwise specified) are not seasonally adjusted.

Les données du mois le plus récent sont des estimations préliminaires et seront révisées lors de la prochaine parution de cette publication.

À moins d'avis contraire, les données paraissant dans cette publication sont non désaisonnalisées.

Symbols

The following standard symbols are used in Statistics Canada publications:

- . figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- p preliminary figures.
- revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

Signes conventionnels

Les signes conventionnels suivants sont employés uniforméme dans les publications de Statistique Canada:

- .. nombres indisponibles.

Survey Overview

Aperçu de l'enquête

Note to readers

Beginning with the May 1998 release, the Labour Division has completed the third phase of its redesign in the use of administrative records for the production of employment, earnings and hours estimates. In addition, a new sample for the Business Payrolls Survey has been drawn to produce estimates of paid hours, and average weekly and hourly earnings. A description of the methodological changes and their impacts on the data is available in the May 1998 publication.

The monthly Survey of Employment, Payrolls and Hours is designed to measure the levels and month-to-month trends of payroll employment, paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

Methodology

Target population

The target population is composed of all employers in Canada, except those in agriculture, fishing and trapping, private households services, religious organizations and military personnel of defence services. The survey reference period for SEPH is the pay period that includes the last seven days of the month.

The statistics contained in this publication are based on:

- *a census of administrative records having approximately 100 employees or more,
- *a sample of administrative records having approximately 99 employees or less.
- a sample survey (BPS) conducted to estimate the variables not reported on administrative records.

*The administrative data come from 2 questions that were added to the Revenue Canada's remittance form (PD7). Note that employers who remit less than \$15,000 monthly in income tax withholdings, Canada/Quebec Pension Plan contributions and Employment Insurance premiums need to remit only once a month while all others are required to remit twice or more monthly. In addition, beginning with October 1997, employers remitting a total of \$12,000 or less per year are allowed to send their payroll deductions to Revenue Canada on a quarterly basis.

The total payroll and employment estimates are obtained from Administrative records. The Business Payrolls Survey

Note aux lecteurs

Avec la parution des estimations de mai 1998, la Division du travail a complété la troisième phase de son remaniement concernant l'utilisation des données administratives dans la compilation des estimations de l'emploi, gains et durée du travail inscrits sur le registre de paye. De plus, un nouvel échantillon a été tiré pour l'Enquête sur la rémunération auprès des entreprises afin de produire des estimations sur le nombre d'heures rémunéres, la rémunération hebdomadaire moyenne ainsi que la rémunération horaire moyenne. Une description des changements méthodologiques, ainsi que de leur impact sur les données est disponible dans la publication de mai 1998.

L'enquête mensuelle sur l'emploi, la rémunération et les heures a pour objet de mesurer les niveaux et les tendances mensuelles de l'ensemble des salariés inscrits sur la liste de paye, des heures rémunérées et des gains. Ces données sont rassemblées à des niveaux détaillés selon l'activité économique pour le Canada, les provinces et les territoires.

Méthodologie

Population cible

La population cible comprend tous les employeurs au Canada sauf ceux des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques, des ménages, des organismes religieux et des services du personnel militaire de la défense. La période de référence de l'EERH, est la période de paye qui correspond aux sept derniers jours du mois.

Les statistiques comprises dans la présente publication sont fondées sur:

- *un recensement des dossiers administratifs comprenant approximativement 100 salariés ou plus,
- *un échantillon des dossiers administratifs comprenant approximativement 99 salariés ou moins,
- une enquête-échantillon (ERE) servant de base pour estimer les variables non rapportées sur les dossiers administratifs.

*Les données administratives proviennent de 2 questions qui ont été ajoutées au formulaire des retenues sur la paye (PD7) de Revenu Canada. Veuillez noter que les employeurs qui versent moins de 15 000 \$ par mois en retenues d'impôt, en contributions au fonds de pension du Canada, au Régime des rentes du Québec et en primes d'assurance-emploi, n'effectuent qu'un versement mensuelle tandis que les autres font 2 versements ou plus par mois. De plus, depuis octobre 1997, les employeurs ayant un maximum total de 12 000 \$ ou moins en retenues sur la paye par année, peuvent faire des versements sur une base trimestrielle à Revenu Canada.

Le nombre total de salariés inscrits sur la liste de paye provient des dossiers administratifs. L'Enquête sur la rémunération auprès des

(BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficients needed to estimate data not reported on the administrative records. Combining different sources, BPS and Administrative Survey results in the full range of SEPH variables.

TERMS AND DEFINITIONS

Industry classification: On the basis of its principal activity, each establishment is assigned an industry code according to the 1980 Standard Industrial Classification. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue 12-501. In the tables of this publication, a column is identified "S.I.C. Code" and corresponds to that manual. SEPH has 281 industry groups in scope. For analytical purposes, special groupings which are not part of the Standard Industrial Classification, have been created.

- a) Industrial aggregate (000-999) represents the sum of all the industries included in the survey. Since January 1994, employment estimates for the Industrial aggregate include the unclassified businesses.
- b) Unclassified businesses (000) represents businesses that have not yet been classified to an SIC, a province or a territory. Since January 1994, employment estimates for industrial aggregate includes the unclassified businesses.
- Goods-producing industries (041-449)(491-499) consist of the following industries; forestry, mining, manufacturing, construction and other utilities industries.
- d) Service-producing industries (451-484)(501-999) consist of the following industries; transportation, communication and storage, trade, finance and insurance, services (except religious organizations and private households) and public administration industries (except military personnel of defence services and other government services).
- e) Durable goods manufacturing consist of the following industries; wood (251-259), furniture and fixtures (261-269), primary metal (291-299), fabricated metal products (301-309), machinery (311-319), transportation equipment (321-329), electrical and electronic products (331-339), non-metallic mineral products (351-359) and other manufacturing industries (391-399).
- f) Non-durable goods manufacturing consist of the following industries; food (101-109), beverage (111-114), tobacco (121-122), rubber products (151-159), plastic products (161-169), leather products (171), primary textile (181-183), textile products (191-199), clothing (243-249), paper and allied products (271-279), printing, publishing and allied (281-284), refined petroleum and coal products (361-369), chemical and chemical products (371-379).

entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas rapportées sur les dossiers administratifs. Ces différents volets soit l'ERE ainsi que les dossiers administratifs sont combinés en vue de produire toutes les variables propres à l'EERH.

TERMES ET DÉFINITIONS

Classement par activité économique: Un code d'activité économique tiré de la Classification type des industries de 1980 est attribué à chaque établissement selon sa principale activité. Les industries et les différents groupes industriels sont décrits dans le manuel "Classification Type des Industries 1980" catalogue 12-501. Dans les tableaux de cette publication, une colonne est identifiée "CTI 1980". Ces codes correspondent à ce manuel. On compte 281 groupes d'activités visées par l'EERH. À des fins analytiques, nous avons créé des groupes spéciaux qui ne figurent pas dans la Classification type des industries.

- a) Ensemble des industries (000-999) représente la somme de toutes les industries visées par l'enquête. Depuis janvier 1994, l'emploi pour l'ensemble des industries comprend les entreprises non classifiées.
- b) Les entreprises non classifiées (000) représentent des entreprises n'ayant pas été identifiées à une classification industrielle, une province ou un territoire. Depuis janvier 1994, l'emploi des entreprises non classifiées est compris dans l'ensemble des industries.
- Branche productrice de biens (041-449)(491-499) englobe les industries suivantes; forêts, mines, manufactures, construction et autres services publics.
- d) Branche productrice de services (451-484)(501-999) englobe les industries suivantes; transports, communications et entreposage, commerce, finances et assurances, services (sauf les organismes religieux et les ménages privés) et l'administration publique (excepté les services du personnel militaire de la défense et autres services gouvernementaux).
- e) Biens durables des industries manufacturières englobe les industries suivantes; bois (251-259), meubles et articles d'ameublement (261-269), première transformation des métaux (291-299), fabrication des produits métalliques (301-309), machinerie (311-319), matériel de transport (321-329), produits électriques et électroniques (331-339), produits minéraux non métalliques (351-359), et autres industries manufacturières (391-399).
- f) Biens non durables des industries manufacturières englobe les industries suivantes; aliments (101-109), boisson (111-114), tabac (121-122), produits en caoutchouc (151-159), produits en matière plastique (161-169), cuir (171), première transformation du textile (181-183), produits textiles (191-199), habillement (243-249), papier et produits connexes (271-279), imprimerie, édition et industries connexes (281-284), produits raffinés du pétrole et du charbon (361-369), produits chimiques (371-379).

- g) Banks (700) consist of the following industries; Central Bank (701), Chartered Banks and other banking-type intermediaries (702).
- Other amusement and recreational services (960) consist of the following industries; commercial spectator sports (964), gambling operations (966) and other amusement and recreational services (969).
- i) Public Administration (812-837) contains only the establishments engaged in activities that are governmental in character and those serving as internal service agencies of the public service. Government owned establishments primarily engaged in activities assigned to other industries are classified in those industries along with similar establishments owned by non-government bodies. Therefore, data included in this industry division do not represent the actual number of persons employed by government at any level.

Variables

Employee:

The employment is derived from administrative records. Since the data for the different employee categories are not reported on the administrative records, the BPS survey is conducted to estimate ratios needed to calculate those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Revenue Canada T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

The employees are classified into the following categories:

a) Employees paid by the hour: any employee whose

- g) Banques (700) englobe les industries suivantes; banque centrale (701) et banques à charte et autres intermédiaires de type bancaire (702).
- Services de divertissements et de loisirs (960) englobe les industries suivantes; sports commerciaux (964), loteries et jeux de hasard (966) et autres services de divertissements et de loisir (969).
- i) Administration publique (812-837) comprend seulement les établissements dont les activités ont un caractère essentiellement gouvernemental, et les organismes auxiliaires assurant les services internes de l'État. Les établissements publics dont l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.

Variables

Salarié:

L'emploi provient des dossiers administratifs. Toutefois, les renseignements concernant les différents types d'emplois ne sont pas rapportés sur les dossiers administratifs; l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servant à estimer ces variables.

L'enquête définit un salarié comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de Revenu Canada.

Le concept de l'enquête combine les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en société, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus, les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

Les salariés sont classés dans les catégories suivantes:

a) Salariés rémunérés à l'heure: toute personne dont la

basic wage is expressed as an hourly rate.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *non-teaching staff:* All employees other than teachers and academic staff, for example; president, vice-president, librarian, registrar, bursar, accountant, guidance counselor, laboratory technician, personnel officer and other services (janitor, caretaker, bus driver, etc.).

 *Salaried employees: any employee whose basic remuneration is a fixed amount for at least one week.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *teaching staff:* those classified as teachers, instructors or academics in the payroll records (e.g. principal, professor, dean, head of department, master, teacher, etc.) whether they teach during the day or evening. Supply or substitute teachers are excluded.

c) *Other employees: those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. Although this variable is not included in this document, the data remains available.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *supply or substitute teachers*: teachers who are called in as needed either to augment existing staff or as short-term replacements for a full-time or part-time teachers.

Weekly Payrolls:

Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, employment insurance contributions etc.., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to employment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to

coincide with the reference week period. The gross monthly payrolls are derived from Administrative records.

Average weekly earnings for all employees:

Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

rémunération de base est calculée selon un taux horaire.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le *personnel non enseignant*: toute personne autre que le personnel enseignant, c'est-à-dire le président, le vice-président, le bibliothécaire, le secrétaire général, l'économe, le comptable, les orienteurs, les techniciens de laboratoire, les agents du personnel ainsi que les autres services (le concierge, pourvoyeur, chauffeur d'autobus, etc.)

 *Employés (à salaire fixe): toutes personnes dont la rémunération de base constitue une somme fixe versée pour au moins une semaine.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le *personnel enseignant*: tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur, professeurs, doyens, chefs de département, maîtres, enseignants, etc.), qu'il enseigne le jour ou le soir. Les suppléants ou remplacants sont exclus.

c) *Autres salariés: toutes personnes dont la rémunération de base se présente sous forme de commissions, de salaire à la pièce, d'indemnités de millage, etc. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le personnel *suppléants ou remplaçants*: enseignants appelés à se présenter au travail lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

Rémunération hebdomadaire brute:

La rémunération mensuelle brute est définie comme étant la partie de la rémunération hebdomadaire brute qui reflète le travail accompli durant la semaine de référence. Ca représente la valeur brute en dollars avant les déductions pour l'impôt sur le revenu, les contributions à l'assurance-emploi etc.., incluant le salaire régulier, le surtemps et la partie bonis, commissions et tout autres types de paiements spéciaux. Le concept sur la rémunération, ne comprend pas les montants en dollars qui représentent des allocations et des avantages imposables, certains types d'indemnités non salariales ainsi que les cotisations patronales à l'assurance-emploi, au régime de pension du Canada ou au Régime des rentes du Québec, aux régimes d'assurance-maladie provinciaux, aux caisses d'indemnisation des accidents du travail et à d'autres régimes de prévoyance. Les paiements annuels spéciaux sont exclus tandis que les paiements forfaitaires spéciaux sont rajustés de façon à coïncider avec la semaine de référence. rémunération mensuelle brute provient des dossiers administratifs.

Rémunération hebdomadaire moyenne pour l'ensemble des salariés:

La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés Average weekly hours for employees paid by the hour and standard work week for salaried employees:

Average weekly hours are obtained by dividing the total paid weekly hours (for employees paid by the hour) by the number of employees (paid by the hour). Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence.

Average hourly earnings (including overtime) for employees paid by the hour:

Is obtained by dividing the total weekly payrolls (for employees paid by the hour) by the total number of weekly hours (for employees paid by the hour). Average hourly earnings are calculated for the hourly-rated employees and for the salaried employees.

inscrits sur la liste de paye.

Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées (des salariés rémunérés à l'heure) par le nombre de salariés (rémunérés à l'heure). Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées.

Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute (des salariés rémunérés à l'heure) par le nombre d'heures travaillées (de ces même salariés). La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des employés. ■

Highlights

Faits saillants

Employment, earnings and hours

November 1999 (preliminary)

In November, average earnings for all employees increased slightly to \$616.04 per week, up \$2.29 from October. Over the last 12 months, average earnings have increased by 1.5 %.

At the industry level, average earnings gains over the preceding 12 months for most industries were moderate, ranging from 1.0% to 2.5%. Workers in logging and forestry services registered the largest annual earnings increase (+5.0%), which was due primarily to gains in hours worked by hourly paid employees.

Hourly rated employees in all industries earned an average of \$15.38 per hour in November, a 2.3% increase from November 1998. Compared with a year earlier, growth in hourly earnings has been strongest in service-producing industries.

Average weekly hours (including overtime) for hourly paid employees were up 0.2 hours in November to 31.4 hours per week, although average overtime hours remained unchanged for the same period. While average weekly hours have not changed from November 1998, total paid hours for hourly employees have increased in the last year due to increases in the number of hourly employees.

Payroll employment increased substantially in November, continuing the upward trend that began in mid-1999. Total employment increased by 56,000 in November, with strong gains in manufacturing, construction and business services. Employment levels increased in almost all provinces with the strongest growth in Ontario, Quebec, Alberta and British Columbia.

Emploi, gains et durée du travail

Novembre 1999 (données provisoires)

En novembre dernier, la rémunération hebdomadaire moyenne pour l'ensemble des salariés a augmenté légèrement pour s'établir à 616,04 \$ par semaine, en hausse de 2,29\$ par rapport à octobre. Durant les douze derniers mois la rémunération moyenne a augmenté de 1,5 %.

En ce qui concerne les secteurs d'activité économique, la hausse de la rémunération moyenne était modérée, au cours des 12 mois précédents, se situant entre 1,0 % et 2,5 % pour la plupart des secteurs. La plus forte augmentation de la rémunération a été enregistrée par les salariés du secteur des exploitations forestières et services forestiers, affichant une hausse annuelle de 5,0 % résultant principalement de l'augmentation des heures travaillées par les employés rémunérés à l'heure.

En novembre, les salariés rémunérés à l'heure pour l'ensemble des secteurs ont gagné en moyenne 15,38\$ de l'heure, une hausse de 2,3 % par rapport à novembre 1998. Comparativement à l'an dernier, la croissance de la rémunération horaire a été plus forte dans les branches productrices de services.

La moyenne des heures hebdomadaires (incluant les heures supplémentaires) pour les salariés rémunérés à l'heure a augmenté de 0,2 heure en novembre pour se situer à 31,4 heures, alors que durant la même période, la moyenne des heures supplémentaires demeurait inchangée. Bien que la moyenne du nombre d'heures travaillées soit demeurée stable depuis novembre 1998, le nombre d'heures payées pour les salariés rémunérés à l'heure a augmenté au cours des 12 derniers mois faisant suite à l'augmentation du nombre de salariés rémunérés à l'heure.

En novembre, le nombre de salariés inscrits sur les listes de paye a augmenté de façon substantielle, continuant ainsi la tendance ascendante amorcée au milieu de l'année 1999. L'emploi total était en hausse de 56,000 en novembre, enregistrant de forts gains dans les secteurs des industries manufacturières, de la construction et des services aux entreprises. Le niveau d'emploi a augmenté dans la plupart des provinces, alors que les plus fortes hausses ont eu lieu dans les provinces de l'Ontario, du Québec, de l'Alberta et de la Colombie-Britannique.

Estimations désaisonnalisées de l'emploi, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

Employment increased in November by 55,991 to 11,943,052. Significant increases were noted in business services (13,750), construction (11,307) and in manufacturing (11,110). The province of Ontario had the most significant increase followed by British Columbia with 17,480 and 11,475 respectively.

En novembre, le niveau de l'emploi a augmenté de 55 991 pour s'établir à 11 943 052. Des augmentations notables ont été enregistrées dans l'industrie des services aux entreprises (13 750), dans la construction (11 307) et dans les industries manufacturières (11 110). Au niveau provincial, c'est en Ontario qu'a eu lieu l'augmentation la plus importante, soit de 17 480 employés, suivit de la Colombie-Britannique avec une hausse de 11 475 employés.

Table 2

Tableau 2

Seasonally Adjusted Estimates of Average Weekly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1995-1999).

Estimations désaisonnalisées de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

Average weekly earnings increased in November by \$2.29 to \$616.04. This increase was noted in both service producing industries (\$2.14) and in goods producing industries (\$4.42). Forestry had the biggest increase month to month (\$12.19). At the provincial level Alberta saw their average weekly earnings go up by \$6.80 compare to October.

En novembre, la rémunération hebdomadaire moyenne était en hausse de 2,29\$ pour s'établir à 616,04\$. Cette croissance a eu lieu dans la branche productrices de services (2,14\$) et dans la branche productrice de biens (4,42\$). L'industrie forestière a affiché la plus forte augmentation d'un mois à l'autre (12,19\$). Au niveau provincial l'Alberta a enregistré une croissance de la rémunération hebdomadaire moyenne de 6,80\$ depuis Octobre.

Table 3

Tableau 3

Fixed-weighted Indexes (1986=100) of Average Hourly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1995-1999).

Indices à pondération fixe (1986=100) de la rémunération horaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

The fixed-weighted index of average hourly earnings grew at 0.5 percent between November 1998 and November 1999, up slightly compared to the October growth rate but down from the growth rate at the beginning of 1999.

Le taux de croissance de l'indice à pondération fixe de la rémunération horaire moyenne a augmenté de 0,5% entre novembre 1998 et novembre 1999. Soit une légère hausse par rapport au taux de croissance annuel enregistré en octobre mais cependant en baisse par rapport au début de l'année de 1999.

Tableau 4

Number of Industries Showing Year-Over-Year Increases in Employment, for Selected Industries, Canada, (1995-1999). Nombre d'industries démontrant des augmentations d'emploi d'une année à l'autre, pour une sélection d'industries, Canada (1995-1999).

The number of industries recording year-over year employment gains increased in November. The gains were mostly in service-producing industries, especially in trade.

En novembre, le nombre d'industries ayant enregistré une croissance annuelle de l'emploi était à la hausse. La croissance c'est fait sentir dans la branche productrice de services, et plus particulièrement dans le secteur du commerce.

Employment, Earnings and Hours, 1999 Statistics Canada - Cat. No. 72-002-XPB

Table 5

Tableau 5

Estimates of Employment, Payrolls and Average Weekly Earnings, for All Employees, by Industry, Canada, Provinces and Territories.

Estimations de l'emploi, de la rémunération brute et de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, par industrie, Canada, provinces et territoires.

Average weekly earnings (including overtime) for all employees in November 1999 stood at \$615.55, an increase from November 1998 of \$9.51. Service-producing industries showed an annual increase of \$9.35, while goods-producing industries experienced a lesser increase of \$6.52.

En novembre, la rémunération hebdomadaire moyenne (incluant le temps supplémentaire) pour l'ensemble des salariés s'établissait à 615,55\$, soit une augmentation de 9,51\$ par rapport à novembre 1998. La branche productrice de services a connu une augmentation annuelle de 9,35\$, alors que la branche productrice de biens enregistrait une augmentation moindre soit de 6,52\$.

Employment, Earnings and Hours, 1999 Statistics Canada - Cat. No. 72-002-XPB

Tableau 6

Estimates of Employment, Average Hourly Earnings and Hours, for Employees Paid by the Hour, by Industry, Canada, Provinces and Territories.

Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les salariés rémunérés à l'heure, par industrie, Canada, provinces et territoires.

Average hourly earnings (including overtime) for employees paid by the hour in November 1999 were \$15.46, an increase of \$0.13 or 2.2% from a year ago. All provinces experienced an increase from a year ago with the exception of Quebec.

En novembre, la rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure s'est établit à 15,46\$ soit une hausse de 0,13\$ ou 2,2% par rapport à l'année précédente. À l'exception du Québec, toutes les provinces ont connus une augmentation au cours des douze derniers mois.

Administrative data: data derived from the monthly payroll deduction forms (PD7 forms) from Revenue Canada. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month.
- TM refers to accelerated remitters (medium and large businesses reporting more than once a month).

Données administratives: données provenant des formulaires de retenue sur la paye (formulaires PD7) de Revenu Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).
- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

^{*} Please note that as of may the SEPH establisment survey has been replaced by an increased use of administrative records in the production of the SEPH estimates.

^{*}Veuillez noter, qu'à partir du mois de référence mai 1998, l'enquête établissement de l'EERH a été remplacé par l'utilisation accrue des données administratives dans la Compilation des estimations de l'EERH.

Market Research Handbook 1999

Unlock Canadian Consumer and Business Markets...

he ALL NEW Market Research Handbook 1999 reveals the Canadian marketplace the way no other statistical resource can. It delivers first hand results from more than 20 specialized Statistics Canada surveys, plus the very latest details from the 1996 Census, in one practical sourcebook!

For entrepreneurs, market researchers, planners and analysts, for big business and small, Market Research Handbook 1999 is an invaluable and comprehensive decision-support tool.

Capitalize on opportunities...

- ▶ spot emerging market trends
- position your products effectively
- gain a competitive edge in an increasingly volatile and competitive economy
- ... and manage the future of your market!

ANALYZE THE CONDITIONS IN YOUR MARKET - FROM THE LOCAL TO THE NATIONAL LEVEL - USING:

Key Demographic Variables

- population education
 - age ▶ sex
 - and more!
 - earnings

Vital Economic Indicators

- labour force productivity
- consumer and industrial price indexes
- and more!
- **Business Demographics**
- by industry urban area
- size of business

▶ household expenditures

private and public investment

international trade data

Gross Domestic Product

retail sales

▶ plus more!

New for 1999!

- immigrants by intended occupation
- ▶ Internet service providers: types of services, regional composition and sources of revenue
- population projections for Nunavut
- household expenditures including games of chance expense (ie. Casino), as well as detailed clothing and health care expenses
- number and receipts of movie theatres including number of screens and seats
- more fields of study for full-time undergraduate enrolment
- employment change and life status of businesses

Market Research Handbook 1999 (Cat. No. 63-224-XPB) costs \$125 in Canada (plus either HST or GST and applicable PST) and US\$125 outside Canada. To order, CALL toll-free at 1 800 267-6677, FAX 1 877 287-4369 or MAIL your order to Statistics Canada, Dissemination Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, Canada KIA 0T6. Or contact your nearest Statistics Canada Regional Reference Centre listed in this publication. You may also order via E-MAIL: order@statcan.ca

Recueil statistique des études de marché 1999

Pénétrez les marchés de consommation et d'affaires canadiens ...

> e TOUT DERNIER Recueil statistique des études de marché 1999 fait état du marché canadien comme aucune autre source statistique ne le fait. Il réunit les résultats de plus de 20 enquêtes spéciales de Statistique Canada, de même que les plus récentes données du Recensement de 1996, dans un seul guide de référence

Pour les entrepreneurs, comme pour les spécialistes des études de marché, les planificateurs et les analystes, de même que pour les grandes et petites entreprises, le Recueil statistique des études de marché 1999 constitue un outil complet de très grande

Tirez profit des possibilités...

- repérez les nouvelles tendances
- positionnez vos produits efficacement
- obtenez un avantage concurrentiel au sein d'une économie de concurrence sans cesse changeante
- ... et gérez l'avenir de votre marché!

Analysez les conditions de votre marché – à l'échelle RÉGIONALE OU NATIONALE - EN UTILISANT:

Les principales variables démographiques

- ▶ âge
 - sexe
- dépenses des ménages ventes au détail
- et plus!

Les indicateurs économiques

- données sur la productivité investissements privés et publiques de la population active
- commerce international
- ▶ indices des prix à la consommation et de l'industrie
- produit intérieur bru et plus!

La démographie des entreprises

secteur d'activité région urbaine

population

scolarité

- taille de l'entreprise
- ▶ et plus!

Nouveau pour 1999!

- les immigrants selon la profession projetée
- les fournisseurs de services Internet : type de services, composition régionale et sources de revenus
- les projections de la population du Nunavut
- les dépenses des ménages, y compris celles consacrées aux jeux de hasard (c.-à-d. au casino), ainsi qu'un bilan détaillé des dépenses sur l'habillement et les soins de santé
- le nombre de cinémas et leurs recettes, y compris le nombre d'écrans et de sièges
- une ventilation plus détaillée des domaines d'études des étudiants à plein temps de premier cycle
- variation de l'emploi et statut des entreprises

Recueil statistique des études de marché 1999 (n° 63-224-XPB au catalogue) se vend 125 \$ au Canada (plus, soit la TVH, soit la TPS et la TVP en vigueur) et 125 \$ US à l'extérieur du Canada. Pour commander, TÉLÉPHONEZ sans frais au 1800 267-6677, TÉLÉCOPIEZ vos commandes au 1877 287-4369 ou POSTEZ votre commande à Statistique Canada, Division de la diffusion, Gestion de la circulation, 120, avenue Parkdale, Ottawa (Ontario) Canada KIA 0T6. Ou communiquez avec votre Centre de consultation régional de Statistique Canada le plus près de chez vous mentionné dans la présente publication. meets your need for accurate, timely and comprehensive information.
The bottom line? You get vital data and analysis on the workplace and related issues facing contemporary Canada!

Each analytical article in this quarterly journal has clear charts, tables and summaries.

Perspectives reveals the latest labour and demographic statistics – essential to

- determine how attitudes toward retirement influence investment decisions
- evaluate the effect of wage trends on union bargaining
- forecast the effect of employment on the demand for goods and services or social programs
- compare your organization within your industry
- develop labour market studies
- ... and much more!

L'emploi et le revenu en perspective

letinezze lituo nU
zel ruog

De nos jours, on attache beaucoup d'importance à

l'information en milieu de travail. La revue *L'emploi et le revenu en perspective* répond à vos besoins pour des renseignements qui sont à

la fois <u>précis</u>, <u>actuels et complets</u>. Vous disposerez alors de données essentielles et d'analyses sur le milieu du travail et sur d'autres défis auxquels le Canada est confronté!

Le tremplin à votre succès

Les articles analytiques de cette revue trimestrielle comportent des graphiques, des tableaux et des sommaires conçus de façon à présenter clairement les statistiques sur le

marché du travail et les statistiques démographiques qui sont essentielles pour :

- déterminer dans quelle mesure les attitudes à l'égard de la retraite influent sur les décisions en matière de placements
- évaluer l'effet des tendances salariales sur les négociations syndicales
- faire des prévisions relatives à l'incidence de l'emploi sur la demande de biens et de services ou sur les programmes sociaux
- comparer votre organisation à votre branche d'activité dans son ensemble
- la effectuer des études sur le marché du travail
- ... et bien plus encore!

Normes de service au public

Statistique Canada s'engage à fournir à ses clients des services rapides, fiables et courtois et dans la langue officielle de leur choix. À cet égard, notre organisme s'est doté de normes de service à la clientèle qui doivent être observées par les employés lorsqu'ils offrent des services à la clientèle. Pour obtenir une copie de ces normes de service, veuillez communiquer avec le centre de consultation régional de Statistique Canada le plus près de chez vous.

Note to users

Re-engineering the survey:

Beginning with the May 1998 release, the Labour Division has completed the third phase of its redesign of the use of administrative records for the production of employment, earnings and hours estimates. With the change in methodology. employment estimates derived from administrative records may show a different seasonal pattern than the previous data, which were derived from survey questionnaires. The impacts on seasonal patterns due to this change in methodology can only be assessed over a longer time period. Statistics Canada will continue to monitor these impacts and will help users interpret this data. To minimize the effect of impacts, data from the Survey on Employment on Employment, Payrolls and Hours, particularly employment data, be used over longer time periods for detailed industry distributions.

For more information on the redesign, users can contact the SEPH dissemination unit at: (613) 951-4090.

Avis aux utilisateurs

Remaniement de l'enquête:

Avec la parution des estimations de mai 1998, Statistique Canada a complété la troisième phase de son remaniement concernant l'utilisation des données administratives dans la compilation des estimations de l'emploi, de la rémunération et des heures de travail. Étant donné ce changement méthodologique, il se peut que les estimations de l'emploi mesurées à partir de données administratives montrent un modèle saisonnier différent de celui des données obtenues à l'aide. de questionnaires, ce qui ne peut être déterminé que dans le contexte d'une plus longue période. Statistique Canada continuera d'examiner ces répercussions et sera disposé à aider quiconque à faire une interprétation correcte de ses données. Afin de minimiser les effets, il est recommandé d'utiliser les données de l'Enquête sur l'emploi, la rémunération et les heures de travail, particulièrement celles de l'emploi, dans le contexte d'une plus longue période ou pour obtenir une distribution détaillée par secteur.

Pour de plus amples renseignements sur le remaniement, communiquez avec l'unité de diffusion au: (613) 951-4090.

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Notes Notes

Data for the current month are preliminary estimates and are subject to revision in the next issue of this publication.

Data contained in this publication (unless otherwise specified) are not seasonally adjusted.

Les données du mois le plus récent sont des estimations préliminaires et seront révisées lors de la prochaine parution de cette publication.

À moins d'avis contraire, les données paraissant dans cette publication sont non désaisonnalisées.

Symbols

The following standard symbols are used in Statistics Canada publications:

- figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- -- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.

Survey Overview

Aperçu de l'enquête

Note to readers

Beginning with the May 1998 release, the Labour Division has completed the third phase of its redesign in the use of administrative records for the production of employment, earnings and hours estimates. In addition, a new sample for the Business Payrolls Survey has been drawn to produce estimates of paid hours, and average weekly and hourly earnings. A description of the methodological changes and their impacts on the data is available in the May 1998 publication.

The monthly Survey of Employment, Payrolls and Hours is designed to measure the levels and month-to-month trends of payroll employment, paid hours and earnings. The data are compiled at detailed industrial levels for Canada, provinces and territories.

Methodology

Target population

The target population is composed of all employers in Canada, except those in agriculture, fishing and trapping, private households services, religious organizations and military personnel of defence services. The survey reference period for SEPH is the pay period that includes the last seven days of the month.

The statistics contained in this publication are based on:

- *a census of administrative records having approximately 100 employees or more,
- *a sample of administrative records having approximately 99 employees or less,
- a sample survey (BPS) conducted to estimate the variables not reported on administrative records.

*The administrative data come from 2 questions that were added to the Revenue Canada's remittance form (PD7). Note that employers who remit less than \$15,000 monthly in income tax withholdings, Canada/Quebec Pension Plan contributions and Employment Insurance premiums need to remit only once a month while all others are required to remit twice or more monthly. In addition, beginning with October 1997, employers remitting a total of \$12,000 or less per year are allowed to send their payroll deductions to Revenue Canada on a quarterly basis.

The total payroll and employment estimates are obtained from Administrative records. The Business Payrolls Survey (BPS) is conducted monthly to collect data that is utilized in the calculation of ratios and regression coefficients needed to estimate data not reported on the administrative records.

Note aux lecteurs

Avec la parution des estimations de mai 1998, la Division du travail a complété la troisième phase de son remaniement concernant l'utilisation des données administratives dans la compilation des estimations de l'emploi, gains et durée du travail inscrits sur le registre de paye. De plus, un nouvel échantillon a été tiré pour l'Enquête sur la rémunération auprès des entreprises afin de produire des estimations sur le nombre d'heures rémunérées, la rémunération hebdomadaire moyenne ainsi que la rémunération horaire moyenne. Une description des changements méthodologiques, ainsi que de leur impact sur les données est disponible dans la publication de mai 1998.

L'enquête mensuelle sur l'emploi, la rémunération et les heures a pour objet de mesurer les niveaux et les tendances mensuelles de l'ensemble des salariés inscrits sur la liste de paye, des heures rémunérées et des gains. Ces données sont rassemblées à des niveaux détaillés selon l'activité économique pour le Canada, les provinces et les territoires.

Méthodologie

Population cible

La population cible comprend tous les employeurs au Canada sauf ceux des secteurs de l'agriculture, de la pêche et du piégeage, des services domestiques, des ménages, des organismes religieux et des services du personnel militaire de la défense. La période de référence de l'EERH, est la période de paye qui correspond aux sept derniers jours du mois.

Les statistiques comprises dans la présente publication sont fondées sur:

- *un recensement des dossiers administratifs comprenant approximativement 100 salariés ou plus,
- *un échantillon des dossiers administratifs comprenant approximativement 99 salariés ou moins,
- une enquête-échantillon (ERE) servant de base pour estimer les variables non rapportées sur les dossiers administratifs.

*Les données administratives proviennent de 2 questions qui ont été ajoutées au formulaire des retenues sur la paye (PD7) de Revenu Canada. Veuillez noter que les employeurs qui versent moins de 15 000 \$ par mois en retenues d'impôt, en contributions au fonds de pension du Canada, au Régime des rentes du Québec et en primes d'assurance-emploi, n'effectuent qu'un versement mensuelle tandis que les autres font 2 versements ou plus par mois. De plus, depuis octobre 1997, les employeurs ayant un maximum total de 12 000 \$ ou moins en retenues sur la paye par année, peuvent faire des versements sur une base trimestrielle à Revenu Canada.

Le nombre total de salariés inscrits sur la liste de paye provient des dossiers administratifs. L'Enquête sur la rémunération auprès des entreprises (ERE) est effectuée chaque mois en vue de recueillir des données afin de calculer des ratios et des coefficients de régression, servant à estimer les données qui ne sont pas

Combining different sources, BPS and Administrative Survey results in the full range of SEPH variables.

TERMS AND DEFINITIONS

Industry classification: On the basis of its principal activity, each establishment is assigned an industry code according to the 1980 Standard Industrial Classification. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue 12-501. In the tables of this publication, a column is identified "S.I.C. Code" and corresponds to that manual. SEPH has 281 industry groups in scope. For analytical purposes, special groupings which are not part of the Standard Industrial Classification, have been created.

- a) Industrial aggregate (000-999) represents the sum of all the industries included in the survey. Since January 1994, employment estimates for the Industrial aggregate include the unclassified businesses.
- Unclassified businesses (000) represents businesses that have not yet been classified to an SIC, a province or a territory. Since January 1994, employment estimates for industrial aggregate includes the unclassified businesses.
- Goods-producing industries (041-449)(491-499) consist of the following industries; forestry, mining, manufacturing, construction and other utilities industries.
- d) Service-producing industries (451-484)(501-999) consist of the following industries; transportation, communication and storage, trade, finance and insurance, services (except religious organizations and private households) and public administration industries (except military personnel of defence services and other government services).
- e) Durable goods manufacturing consist of the following industries; wood (251-259), furniture and fixtures (261-269), primary metal (291-299), fabricated metal products (301-309), machinery (311-319), transportation equipment (321-329), electrical and electronic products (331-339), non-metallic mineral products (351-359) and other manufacturing industries (391-399).
- f) Non-durable goods manufacturing consist of the following industries; food (101-109), beverage (111-114), tobacco (121-122), rubber products (151-159), plastic products (161-169), leather products (171), primary textile (181-183), textile products (191-199), clothing (243-249), paper and allied products (271-279), printing, publishing and allied (281-284), refined petroleum and coal products (361-369), chemical and chemical products (371-379).
- Banks (700) consist of the following industries; Central Bank (701), Chartered Banks and other banking-type intermediaries (702).
- h) Other amusement and recreational services (960)

rapportées sur les dossiers administratifs. Ces différents volets soit l'ERE ainsi que les dossiers administratifs sont combinés en vue de produire toutes les variables propres à l'EERH.

TERMES ET DÉFINITIONS

Classement par activité économique: Un code d'activité économique tiré de la Classification type des industries de 1980 est attribué à chaque établissement selon sa principale activité. Les industries et les différents groupes industriels sont décrits dans le manuel "Classification Type des Industries 1980" catalogue 12-501. Dans les tableaux de cette publication, une colonne est identifiée "CTI 1980". Ces codes correspondent à ce manuel. On compte 281 groupes d'activités visées par l'EERH. À des fins analytiques, nous avons créé des groupes spéciaux qui ne figurent pas dans la Classification type des industries.

- Ensemble des industries (000-999) représente la somme de toutes les industries visées par l'enquête. Depuis janvier 1994, l'emploi pour l'ensemble des industries comprend les entreprises non classifiées.
- b) Les entreprises non classifiées (000) représentent des entreprises n'ayant pas été identifiées à une classification industrielle, une province ou un territoire. Depuis janvier 1994, l'emploi des entreprises non classifiées est compris dans l'ensemble des industries.
- Branche productrice de biens (041-449)(491-499) englobe les industries suivantes; forêts, mines, manufactures, construction et autres services publics.
- d) Branche productrice de services (451-484)(501-999) englobe les industries suivantes; transports, communications et entreposage, commerce, finances et assurances, services (sauf les organismes religieux et les ménages privés) et l'administration publique (excepté les services du personnel militaire de la défense et autres services gouvernementaux).
- e) Biens durables des industries manufacturières englobe les industries suivantes; bois (251-259), meubles et articles d'ameublement (261-269), première transformation des métaux (291-299), fabrication des produits métalliques (301-309), machinerie (311-319), matériel de transport (321-329), produits électriques et électroniques (331-339), produits minéraux non métalliques (351-359), et autres industries manufacturières (391-399).
- Biens non durables des industries manufacturières englobe les industries suivantes; aliments (101-109), boisson (111-114), tabac (121-122), produits en caoutchouc (151-159), produits en matière plastique (161-169), cuir (171), première transformation du textile (181-183), produits textiles (191-199), habillement (243-249), papier et produits connexes (271-279), imprimerie, édition et industries connexes (281-284), produits raffinés du pétrole et du charbon (361-369), produits chimiques (371-379).
- Banques (700) englobe les industries suivantes; banque centrale (701) et banques à charte et autres intermédiaires de type bancaire (702).
- n) Services de divertissements et de loisirs (960) englobe les

consist of the following industries; commercial spectator sports (964), gambling operations (966) and other amusement and recreational services (969).

i) Public Administration (812-837) contains only the establishments engaged in activities that are governmental in character and those serving as internal service agencies of the public service. Government owned establishments primarily engaged in activities assigned to other industries are classified in those industries along with similar establishments owned by non-government bodies. Therefore, data included in this industry division do not represent the actual number of persons employed by government at any level.

Variables

Employee:

The employment is derived from administrative records. Since the data for the different employee categories are not reported on the administrative records, the BPS survey is conducted to estimate ratios needed to calculate those variables.

The survey determines an employee as being any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Revenue Canada T-4 Supplementary Form.

The employee concept includes full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses, the self-employed, unpaid family workers, persons working outside Canada, military personnel and casual workers for whom a T-4 is not required. It also excludes those who did not receive any pay from the employer for the entire survey reference period (e.g. persons on strike, persons on unpaid holidays, persons receiving remuneration from an insurance, Workmens' compensation or other related fund, etc.). However, employees paid for part of the reference period and unemployed or on strike for the rest of this period are included in the survey.

The employees are classified into the following categories:

 a) Employees paid by the hour: any employee whose basic wage is expressed as an hourly rate.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *non-teaching staff:* All employees other than teachers and academic staff, for example; president, vice-president, librarian, registrar, bursar, accountant, guidance counselor, laboratory technician, personnel officer and other services (janitor, caretaker, bus driver, etc.).

industries suivantes; sports commerciaux (964), loteries et jeux de hasard (966) et autres services de divertissements et de loisir (969).

i) Administration publique (812-837) comprend seulement les établissements dont les activités ont un caractère essentiellement gouvernemental, et les organismes auxiliaires assurant les services internes de l'État. Les établissements publics dont l'activité dominante relève d'autres activités économiques sont classés sous les mêmes rubriques que les établissements privés semblables. Ainsi, les données publiées pour cette division économique ne représentent pas le nombre réel de personnes employées par les différents pouvoirs publics.

Variables

Salarié:

L'emploi provient des dossiers administratifs. Toutefois, les renseignements concernant les différents types d'emplois ne sont pas rapportés sur les dossiers administratifs; l'enquête ERE est effectuée en vue de recueillir des données afin de calculer les ratios servant à estimer ces variables.

L'enquête définit un salarié comme étant: toute personne rétribuée pour ses services ou ses absences et pour laquelle l'employeur doit remplir une déclaration T-4 Supplémentaire de Revenu Canada.

Le concept de l'enquête combine les salariés à temps plein et à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise). Il désigne aussi les propriétaires, administrateurs, associés et autres dirigeants actifs des entreprises constituées en corporation.

Le concept de salarié exclut les propriétaires et les associés des entreprises non constituées en société, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les personnes travaillant à l'extérieur du Canada et le personnel militaire et les employés occasionnels dont l'employeur n'est pas tenu de remplir la formule T4. Sont également exclus, les travailleurs n'ayant pas reçu de paye de leur employeur pendant la période de référence de l'enquête (c.-à-d. les personnes en grève, en congé non payé, les personnes recevant une rémunération aux termes d'un régime d'assurance, d'une caisse d'indemnisation des accidents au travail ou d'un régime analogue, etc.). Cependant, les travailleurs rémunérés pour une partie de la période de référence et en chômage ou en grève pour le reste de la période sont inclus dans l'enquête.

Les salariés sont classés dans les catégories suivantes:

 Salariés rémunérés à l'heure: toute personne dont la rémunération de base est calculée selon un taux horaire.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le *personnel non enseignant*: toute personne autre que le personnel enseignant, c'est-à-dire le président, le vice-président, le bibliothécaire, le secrétaire général, l'économe, le comptable, les orienteurs, les techniciens de laboratoire, les agents du personnel ainsi que les autres services (le concierge,

b) *Salaried employees: any employee whose basic remuneration is a fixed amount for at least one week.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *teaching staft:* those classified as teachers, instructors or academics in the payroll records (e.g. principal, professor, dean, head of department, master, teacher, etc.) whether they teach during the day or evening. Supply or substitute teachers are excluded.

*Other employees: those employees whose basic remuneration is in the form of commissions, piece rates, mileage allowances, etc. Although this variable is not included in this document, the data remains available.

Employment for Elementary and Secondary (851), Post Secondary (852) and University (853) education industries, represent in this category *supply or substitute teachers*: teachers who are called in as needed either to augment existing staff or as short-term replacements for a full-time or part-time teachers.

Weekly Payrolls:

Weekly payrolls are defined as the portion of gross monthly payrolls that reflect work performed during the reference week. It represents the gross dollar value before deductions for income taxes, employment insurance contributions etc.., including regular pay, overtime and a portion of bonuses, commissions and other type of special payments. The payroll concept excludes dollar amounts that are taxable allowances and benefits, certain types of non-wage compensation as well as employer contributions to employment insurance, Canada/Quebec pension plans, provincial medical plans, workers compensation and other welfare plans. Some annual special payments are excluded while other lump sum special payments are adjusted to coincide with the reference week period. The gross monthly payrolls are derived from Administrative records.

Average weekly earnings for all employees:

Average weekly earnings are derived by dividing total weekly payrolls by the payroll employment.

Average weekly hours for employees paid by the hour and standard work week for salaried employees:

Average weekly hours are obtained by dividing the total paid weekly hours (for employees paid by the hour) by the number of employees (paid by the hour). Total paid hours are defined as all hours paid including overtime hours plus hours of paid absence.

pourvoyeur, chauffeur d'autobus, etc.)

 b) *Employés (à salaire fixe): toutes personnes dont la rémunération de base constitue une somme fixe versée pour au moins une semaine.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le *personnel enseignant*: tout travailleur classé comme enseignant ou chargé de cours dans les dossiers du service de la paye (directeur, professeurs, doyens, chefs de département, maîtres, enseignants, etc.), qu'il enseigne le jour ou le soir. Les suppléants ou remplaçants sont exclus.

c) *Autres salariés: toutes personnes dont la rémunération de base se présente sous forme de commissions, de salaire à la pièce, d'indemnités de millage, etc. Même si cette variable ne figure pas dans ce document, elle demeure disponible.

L'emploi pour les industries d'enseignement élémentaire et secondaire (851), postsecondaire (852) et universitaire (853), représente dans cette catégorie le personnel *suppléants ou remplaçants*: enseignants appelés à se présenter au travail lorsqu'on a besoin de leurs services soit pour accroître le personnel existant, soit pour remplacer pendant une courte période un enseignant à temps plein ou à temps partiel.

Rémunération hebdomadaire brute:

La rémunération mensuelle brute est définie comme étant la partie de la rémunération hebdomadaire brute qui reflète le travail accompli durant la semaine de référence. Ça représente la valeur brute en dollars avant les déductions pour l'impôt sur le revenu, les contributions à l'assurance-emploi etc.., incluant le salaire régulier, le surtemps et la partie bonis, commissions et tout autres types de paiements spéciaux. Le concept sur la rémunération, ne comprend pas les montants en dollars qui représentent des allocations et des avantages imposables, certains types d'indemnités non salariales ainsi que les cotisations patronales à l'assurance-emploi, au régime de pension du Canada ou au Régime des rentes du Québec, aux régimes d'assurance-maladie provinciaux, aux caisses d'indemnisation des accidents du travail et à d'autres régimes de prévoyance. Les paiements annuels spéciaux sont exclus tandis que les paiements forfaitaires spéciaux sont rajustés de façon à coïncider avec la semaine de référence. rémunération mensuelle brute provient des dossiers administratifs.

Rémunération hebdomadaire moyenne pour l'ensemble des salariés:

La rémunération hebdomadaire moyenne est calculée en divisant la masse salariale brute imposable par le nombre de salariés inscrits sur la liste de paye.

Heures hebdomadaires moyennes pour les salariés rémunérés à l'heure et la semaine normale de travail des employés:

Les heures hebdomadaires moyennes sont calculées en divisant le nombre total d'heures hebdomadaires rémunérées (des salariés rémunérés à l'heure) par le nombre de salariés (rémunérés à l'heure). Le nombre total d'heures rémunérées est défini comme étant toutes les heures payées y compris les heures supplémentaires et les heures d'absence payées.

Average hourly earnings (including overtime) for employees paid by the hour:

Is obtained by dividing the total weekly payrolls (for employees paid by the hour) by the total number of weekly hours (for employees paid by the hour). Average hourly earnings are calculated for the hourly-rated employees and for the salaried employees.

Rémunération horaire moyenne (incluant le temps supplémentaire) des salariés rémunérés à l'heure:

La rémunération horaire moyenne est calculée en divisant la rémunération hebdomadaire brute (des salariés rémunérés à l'heure) par le nombre d'heures travaillées (de ces même salariés). La rémunération horaire moyenne est calculée à l'égard des salariés rémunérés à l'heure et des employés.

Highlights

Faits saillants

Employment, earnings and hours

December 1999 (preliminary)

In December, average weekly earnings for all employees increased to an estimated \$619.91, up \$5.45 from November. Over the last 12 months, average weekly earnings have increased 1.8%. The pace of growth in average earnings has increased since the first quarter of 1999 but remains below the annual increase of the Consumer Price Index, which was 2.6% in December 1999.

At the provincial level, average earnings gains over the last 12 months for most provinces were moderate, ranging from -1.1% to 4.2%. New Brunswick recorded the strongest year-over-year earnings growth (+4.2%). Earnings gains in this province were widespread by industry and were mostly due to average hourly earnings increases for both hourly paid and salaried employees. Ontario also recorded relatively strong average earnings growth of 2.1% in the past year.

Hourly rated employees in all industries earned an average of \$15.54 per hour in December, an increase of 1.7% from December 1998. Hourly earnings growth has been strongest in service-producing industries.

Average weekly hours (including overtime) for hourly paid employees rose by 0.3 hours to 31.5 in December, due in part to an increase of 0.1 hours in overtime.

In December, payroll employment continued its upward trend, increasing by 57,000. Growth in employment was strong in manufacturing, construction, trade and business services industries. All provinces and territories recorded employment increases, with the largest gains in Quebec and Ontario. At the national level, employment growth was strong in 1999 as 302,000 employees were added to payrolls between December 1998 and December 1999.

Emploi, gains et durée du travail

Décembre 1999 (données provisoires)

En décembre, la rémunération hebdomadaire moyenne pour l'ensemble des salariés était estimée à 619,91 \$, en hausse de 5,45 \$ par rapport à novembre. Durant les 12 derniers mois, la rémunération hebdomadaire moyenne a augmenté de 1,8 %. Le rythme de la croissance de la rémunération hebdomadaire moyenne a augmenté depuis le premier trimestre de 1999, mais demeure en dessous de la croissance annuelle de l'Indice des prix à la consommation qui se situait à 2,6 % en décembre 1999.

À l'échelon provincial, la hausse de la rémunération hebdomadaire moyenne durant les 12 derniers mois était modérée pour la plupart des provinces, s'échelonnant entre -1,1 % et 4,2 %. C'est le Nouveau-Brunswick qui a connu la plus forte croissance annuelle de la rémunération hebdomadaire (+4,2 %). Cette croissance s'est faite sentir dans la plupart des secteurs et est attribuable en grande partie à des hausses de la rémunération horaire moyenne des salariés rémunérés à l'heure et des employés à salaire fixe. La province de l'Ontario a aussi enregistré une forte croissance de la rémunération hebdomadaire moyenne, augmentant de 2,1 % durant les 12 derniers mois.

Les salariés rémunérés à l'heure dans l'ensemble des secteurs ont gagné en moyenne 15,54 \$ de l'heure en décembre, en hausse de 1,7 % par rapport à décembre 1998. La croissance de la rémunération horaire moyenne a été plus forte dans les branches productrices de services.

La moyenne des heures hebdomadaires (incluant les heures supplémentaires) pour les salariés rémunérés à l'heure a augmenté de 0,3 heure en décembre pour se situer à 31,5. Cette augmentation est attribuable en partie à une hausse de 0,1 heure des heures supplémentaires.

En décembre, le nombre de salariés inscrits sur les listes de paye a continué sa tendance à la hausse, augmentant de 57 000. La croissance de l'emploi a été forte dans les secteurs des industries manufacturières, de la construction, du commerce et des services aux entreprises. Le niveau d'emploi a augmenté dans toutes les provinces et territoires, les plus importantes hausses étant enregistrées dans les provinces du Québec et de l'Ontario. À l'échelon national, la croissance du niveau de l'emploi a été forte en 1999, alors que 302 000 salariés étaient ajoutés sur les listes de paye de décembre 1998 à décembre 1999.

Estimations désaisonnalisées de l'emploi, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

Employment increased in December by 57,363 to 12,011,305. Significant increases were noted in business services (17,913), manufacturing (14,472), construction (14,112). The province of Quebec had the most significant increase with 22,770 employees followed by Ontario with 17,299 employees.

En décembre, le niveau d'emploi a augmenté de 57 363 pour s'établir à 12 011 305. Des hausses substantielles ont été enregistrées dans les industries des services aux entreprises (17 913), des manufactures (14 472) ainsi que dans la construction (14 112). Au niveau des provinces, le Québec a enregistré la croissance la plus forte avec 22 770 employés suivi de l'Ontario avec une hausse de 17 299 employés.

Table 2

Tableau 2

Seasonally Adjusted Estimates of Average Weekly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1995-1999). Estimations désaisonnalisées de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

Average weekly earnings increased in December by \$5.45 to \$619.91. This increase was noted in both service-producing industries (\$4.49) and in goods producing industries (\$7.26). Finance, insurance and real estate had the biggest month-to-month increase (\$26.25). At the provincial level, employees in Manitoba saw their average weekly earnings go up by \$12.80 when compared to November.

En décembre, la rémunération hebdomadaire moyenne a augmenté de 5,45\$ pour s'établir à 619.91\$. Les branches productrices de services (4,49\$) et de biens (7,26\$) ont toutes deux enregistré des hausses. Les industries des finances assurances et affaires immobilières ont affichées les augmentations mensuelles les plus importantes (26.25\$). Au niveau provincial, les salariés du Manitoba ont connu une augmentation de la rémunération hebdomadaire moyenne de 12,80\$ par rapport à novembre.

Table 3

Tableau 3

Fixed-weighted Indexes (1986=100) of Average Hourly Earnings, for All Employees, for Selected Industries, Canada, Provinces and Territories, (1995-1999).

Indices à pondération fixe (1986=100) de la rémunération horaire moyenne, pour l'ensemble des salariés, pour une sélection d'industries, Canada, provinces et territoires, (1995-1999).

The fixed-weighted index of average hourly earnings increased in December. The annual growth rate accelerated from –0.1 percent to 1.7 percent due to earnings gains in both goods-producing and service-producing industries.

L'indice à pondération fixe de la rémunération horaire moyenne affichait une hausse en décembre. Le taux de croissance annuel s'est acceléré passant de -0,1% pour atteindre 1,7%, cette croissance est attribuable a l'augmentation de la rémunération dans les branches productrices de biens et de services.

Employment, Earnings and Hours, 1999 Statistics Canada - Cat. No. 72-002-XPB

Table 5

Tableau 5

Estimates of Employment, Payrolls and Average Weekly Earnings, for All Employees, by Industry, Canada, Provinces and Territories.

Estimations de l'emploi, de la rémunération brute et de la rémunération hebdomadaire moyenne, pour l'ensemble des salariés, par industrie, Canada, provinces et territoires.

Average weekly earnings (including overtime) for all employees in December 1999 stood at \$620.72, an increase from December 1998 of \$11.82. Service-producing industries showed an annual increase of \$11.69, while goods-producing industries experienced a lesser increase of \$9.18.

La rémunération hebdomadaire (incluant le temps supplémentaire) pour l'ensemble des salariés s'est établie à 620,72\$ en décembre 1999 soit une hausse de 11,82\$ par rapport à décembre 1998. La branche productrice de services a enregistré une augmentation de 11,69\$ alors que la branche productrice de biens affichait une hausse légèrement plus faible de 9,18\$.

Tableau 7

Estimates of Employment, Average Hourly Earnings and Hours, for Salaried Employees, by Industry, Canada, Provinces and Territories.

Estimations de l'emploi, de la rémunération horaire moyenne et des heures, pour les employés (à salarie fixe), par industrie, Canada, provinces et territoires.

Average weekly earnings (including overtime) for salaried employees experienced an annual increase of 2.7% in December 1999 of \$20.94 from December 1998. All provinces and territories registered an annual increase with service producing industries having a slightly stronger gain compared to the goods producing industries.

En décembre 1999, la rémunération hebdomadaire moyenne (incluant le temps supplémentaire) des employés a affiché une croissance annuelle de 2,7% en hausse de 20,94\$ par rapport à décembre 1998. Les provinces et les territoires ont enregistrés une croissance annuelle. La branche productrice de services a inscrit une augmentation un peu plus forte que celle de la branche productrice de biens.

Administrative data: data derived from the monthly payroll deduction forms (PD7 forms) from Revenue Canada. There are two types of payroll deduction (PD) accounts.

- PD7A refers to monthly remitters (small businesses reporting once a month.
- TM refers to accelerated remitters (medium and large businesses reporting more than once a month).
- * Please note that as of may the SEPH establisment survey has been replaced by an increased use of administrative records in the production of the SEPH estimates.

Données administratives: données provenant des formulaires de retenue sur la paye (formulaires PD7) de Revenu Canada. Il existe deux genres de comptes de retenues sur la paye (RP).

- PD7A se rapporte aux remises mensuelles (petites entreprises effectuant une remise par mois).
- TM se rapporte aux remises accélérées (moyennes et grandes entreprises effectuant plus d'une remise par mois).

^{*}Veuillez noter, qu'à partir du mois de référence mai 1998, l'enquête établissement de l'EERH a été remplacé par l'utilisation accrue des données administratives dans la Compilation des estimations de l'EERH.

Sovez branehé

grâce aux publications éléctroniques de Statistique Canada!

Vivez au rythme virtuel des publications électroniques de Statistique Canada. De la rubrique Arts et culture à la rubrique Voyages, transport et entreposage, vous trouverez plus de 120 titres répartis en 18 catégories, et la liste s'allonge de jour en jour.

Save money.

Order online and you'll receive a 25% price reduction from that of our print publications.

One price, many rewards.

Statistics Canada subscriptions offer indefinite access to your publication and up to three years of its previous issues.

Built to last.

Unlike paper, e-versions won't yellow, fade or tear. They will stay intact and accessible for years to come!

Find the information you need now.

Online documents allow you to search, locate and print exactly what you are looking for.

Be the first to know.

Our electronic publications are regularly available before print versions, so you always have access to the most current releases.

Feel safe about ordering online.

Our secure site makes using your credit card online safe and easy. Guaranteed.

Be green.

By consciously choosing electronic over paper, you're doing your part to be ecologically friendly. Feel good about doing business, respecting the environment and saving precious resources.

Save time.

Access your publication on the day of release - no more waiting for delivery.

Put the data to work.

Copy text from our online publications right into your documents and databases.

Access anywhere, anytime.

Get up-to-date detailed information quickly and efficiently, regardless of location and time constraints.

On our site, go to <u>Products and Services</u>, select <u>Downloadable publications</u> (\$) and simply follow the steps to subscribe or purchase. It's that easy!

www.statcan.ca Built for Business

Économisez de l'argent.

Les achats en ligne vous donnent droit à un rabais de 25 % sur le prix des ouvrages imprimés.

Un seul prix, beaucoup de primes.

À Statistique Canada, les abonnements sont assortis d'un accès illimité à la publication que vous choisissez et aux numéros antérieurs pour une période pouvant couvrir jusqu'à trois années.

Conçues pour durer.

Contrairement aux documents imprimés, les versions électroniques ne jaunissent pas, ne se décolorent pas et ne se déchirent pas. Elles restent intactes et accessibles pendant des années!

Trouvez les renseignements que vous cherchez maintenant.

Les documents en ligne vous permettent de chercher, de trouver et d'imprimer exactement ce que vous désirez obtenir.

Prenez la tête du peloton.

Nos publications électroniques sortent généralement avant les versions imprimées; vous avez donc accès aux parutions les plus récentes.

Soyez rassuré quant aux commandes en ligne.

Grâce à la sûreté de notre site, l'utilisation en ligne de votre carte de crédit est simple et sans risque. C'est garanti.

Pensez «écolo».

En optant pour les produits électroniques plutôt que les documents imprimés, vous participez à la préservation de l'environnement. Faites d'une pierre, trois coups : travaillez, respectez l'environnement et conservez des ressources précieuses.

Gagnez du temps.

Accédez à la publication le jour de sa parution - aucun délai de livraison.

Mettez les données à l'oeuvre.

Copiez des extraits de nos publications en ligne directement dans vos documents et bases de données.

Accès partout, en tout temps.

Obtenez rapidement et efficacement des renseignements détaillés et à jour, peu importe les contraintes de lieu et de temps.

What if...

Que diriez-vous...

WHAT IF there were a place that could save you and your business time and money by offering a consolidated area with the latest in Canadian statistics?

WHAT IF there were a place that offered accessible and reliable data on an assortment of current hot topics on Canadian social and economic themes?

WHAT IF there were a place where analysis experts that know your markets could provide you with advice and customized data at your fingertips?

WHAT IF there were such a place?

THERE IS SUCH A PLACE

même endroit tout ce qu'il y a de plus récent en statistiques canadiennes et, du même coup, de réaliser une économie de temps et d'argent pour vous et votre entreprise?

QUE DIRIEZ-VOUS d'un endroit où seraient mises à votre portée des données fiables sur tout un éventail de sujets brûlants d'actualité du domaine social et économique canadien?

QUE DIRIEZ-VOUS d'un endroit où, en appuyant simplement sur quelques touches, vous auriez accès à des conseils et des données sur mesure, fournis par des analystes bien au courant des marchés auxquels vous vous intéressez?

QUE DIRIEZ-VOUS si un tel endroit existait?

EH BIEN, IL EXISTE!
